www.aplusindustries.in

Welcome to **A PLUS**, the world of brilliant and colourful solution to all your doors, windows, walls and flooring under one roof.

A PLUS is proud to be associated and tied up with VEKA, German manufacturer of uPVC profile for doors and windows.

A PLUS is also proud to be associated and tied up with Aluminco, Greece for premium Aluminum doors and windows (Thermal & Cold System) including other building solutions like railings, panel doors, lighting etc.

All manufacturing process and installation are designed & certified as per international standards and our team members are trained by the certified technical partner to deliver a technical marvel piece everytime.

We are here to help you express your own style, in the architecture and the beauty of your home. We are here to help you protect your home and your family from the bad elements. We offer a unique range of colours and surface finishes. Due to its long lasting properties, our products have a timeless design, resulting in a 30+ year life cycle.

Vision of Team **A PLUS**

An organisation focussed to its customers for their satisfactions in terms of product value, quality and its customisation and at large to contribute to the society saving the precious natural forest resources by providing eco-friendly products.

Doors and Windows for life.....an unforgettable experience of comfort and cosiness of your living.

Now the doors and windows are just not opening but are eyes to the outside world. These openings deserve well treatment to maintain the comfort and cosiness of your living.

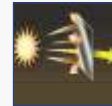

The properties which we are boast of our doors and windows are:

Trend towards acceptance of uPVC / aluminum material

No rotting or warping

No discoloration under Intense heat & UV exposure

Excellent thermal & acoustic insulation

A wide range of styles and colours to compliment your home

No corrosion

Environmental friendly & Energy saving

Maintenance free not easily dent, scratch - high impact strength

High durability (more than 30 years)

uPVC / Aluminum windows and double glazing can dramatically enhance the warmth and security of your property, whilst also creating a modern, visually appealing finish. Highly durable, uPVC / Aluminum is incredibly low-maintenance and many households benefit from its easy to preserve, wipe-clean surface.

We offer an extensive range of uPVC/ Aluminum windows and doors available in a variety of styles and designs.

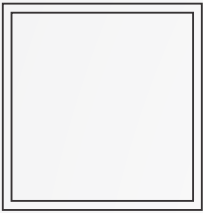

Products

The company offer a varied range of uPVC and Aluminum doors and windows including home product solutions in different designs and colour options.

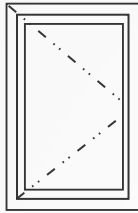

Aluminum doors and windows come in cold and thermal series with powder coating and anodised finish in every colour and design.

Wallpaper

There is collection of glamorous designer wallpaper to recreate any space, from the bedroom to the bathroom we have an extensive selection of modern wallpaper to suit your needs. All of our wallpaper is well organized. We are proud to offer the finest selection of modern wallpaper on the market, conveniently organized into categories such as Pattern, Style, Color, and Designer, so you can easily find the perfect wallpaper. Whether you are looking for contemporary, eco-friendly, embossed, or floral, we have the variety of wallpaper to suite your needs and work within your budget.

Wooden Flooring

Wood flooring has mastered the art of making high-end hardwood floors entailing innovative ideas that will transform your space into stylish statement. Reflective pigmented floors are quite popular which changes with different lighting conditions, reflects light grey when exposed to white light and light brown when exposed to sunlight. Also in trend are Chervon planks, which were used in ancient forts etc. Lamiwood offers a variety of these laminated floorings that will recreate the look of natural surface in your surroundings at affordable prices.

External Cladding

Discover the new face of exteriors and create landmark with Evoque. The collection includes Facade Cladding, Balcony Cladding, Canopies, Railings, Fences and Gate Elevation.

ALSTONE EVOQUE is High Quality-High Pressure Laminate Aluminium Panel. but is actually more durable and weather resistant. This is achieved by studying a better alternative using state of art technology and high quality raw materials while the aluminum coil with a double layered coating makes it resistant to dust and sand in the air, its predominantly polyethylene core makes it water-proof, termite and fungus resistant. The company's confidence in Evoque reflects further in the 15 years guarantee that it provides. Also, unlike HPL and wooden planks, these 8mm thick panels are perfectly suitable for the extreme and completely unpredictable Indian weather.

CHOICE OF HARDWARE FOR SECURITY

The hardware which we use are German as well others which meets the level of perfection in security, performance and aesthetically

Green Building Solutions to :

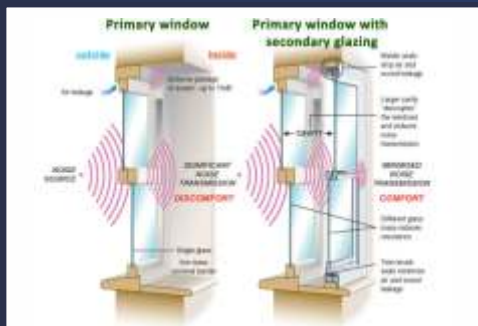

Residential | Hotels | Offices | Educational institutes | Projects

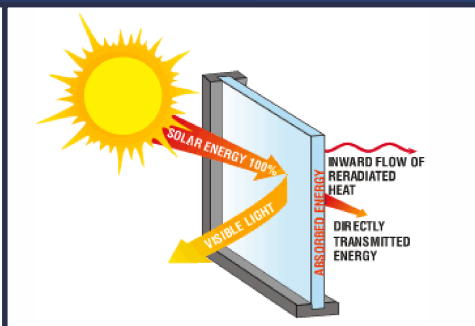

Choice of glass for sound/thermal insulation

As important as the selection of the uPVC / Aluminum windows & Doors is the selection of the glass i.e the glazing. A Plus uPVC Windows & Doors can be delivered with the best glass for your needs that could be: laminated glass, tempered glass, insulated glass, bent glass, sound control glass, burglar resistant glass, and even more bullet proof glass.

The common factors affecting glass choice are:

Acoustic insulation

Thermal insulation

Visual appearance

Our Technology Partner

Exclusive Certified partner of VEKA, German uPVC profile

VEKA is world's top quality manufacturer of uPVC profiles used in making doors & windows.

VEKA AG is one of the world's leading manufacturers of uPVC profile systems for windows, doors, roller shutters and uPVC sheets. Based in Sendenhorst, Germany, VEKA has become a major force in the market during its 38 years of existence.

Market are full of uPVC profile but VEKA makes difference.....

A PLUS uPVC Doors & Windows Systems are manufactured with the German standards with multi chamber profiles that are the actual means for heat, sound and thermal insulation with the wall thickness of +2.5mm as per the series used that lasts long for years to come. It meets strictest of International standards including IGBC (Indian Green Building Council).

Exclusive Certified partner of Aluminco, Greece Aluminium Profile

Aluminco is world's top quality manufacturer of Aluminum profiles used in making doors & windows.

ALUMINCO's distribution network serves the key markets of Europe, Africa, Asia and U.S.A. distributing ALUMINCO products globally, in more than 60 countries.

The window and door systems we design and manufacture feature high insulation values for the best energy performance and long-lasting for years of low maintenance.

GO GREEN

Go green (According to the USGBC, Green building is a concept wherein the built environment can have profound effects, both positive and negative, on the natural environment, as well as the people who inhabit buildings every day.

Due to the alarming issue of global warming, the concept of energy efficient green buildings is catching up fast with the customers. Reduced energy consumption by the building throughout the life of the building is known as energy efficient, and uPVC window manufacturers offer an ideal solution for the energy efficient conscious customers.
